New development in Bodicote:

The Neighbourhood Plan can help influence the form of development that takes place at Bodicote House when Cherwell District relocates to Castle Quay. The Cherwell Local Plan says 75 homes could be accommodated here. Do you have any ideas on the type and form of development that should come forward?

Other smaller sites may also continue to come forward for development. These should be of a high quality design and reflect the best qualities of local character.

How would you describe the character of the built and natural environment in Bodicote?

Local Green Spaces and Key views:

Important green spaces in Bodicote that are of value to the community can be protected from development.

Which green spaces do you think should be protected, and why are they important to the community?

Are there any special or important vistas / views from Bodicote looking out towards the countryside that contribute to the setting and identity of the village?

Please list here and say why they are important.

Thank you!
